**2. Main Applicant**

Name:	
Profession / Titles:	
Position:	
Office Address:	
E-Mail:	
Phone:	

**3. Project Goal (max. 5 lines)**

--

**4. Project Duration**

Begin:  Planned End:

**5. Patent Situation**

Pending patents:  Yes  No      Existing patents:  Yes  No

### 6. Project Costs

Currency:  CHF  EUR  USD

Personnel costs:

Material costs:

Total amount:

--

Other support: Is or will this project be supported by any other agency?  Yes  No

If YES, please give details about the support (agency, total amount, duration)  
(to be described in a separate document entitled «Additional support»)

RMS collaboration: Is an active involvement of RMS researchers requested?  Yes  No

Projects with contributions by RMS researchers are treated with priority

### 7. Project Outline

To be enclosed in a separate document (max. 2 – 3 pages)

- Project description (state of the art, methods, expected results)
- Statement of relevance
- If applicable: Description of expected active involvement of RMS researchers

### Conditions of the Grant

- The topic of the grant application must be in line with RMS research interests. (i) In medical technology research, the focus is on the function, regeneration, and replacement of the skeletal system (bones, joints, ligaments, intervertebral discs). (ii) In materials technology research, the focus is on the shape-specific production, processing and characterization of materials and surfaces, as well as on the evaluation of materials, technologies and processes.
- The grant applications may be written in English or German.
- No overheads shall be paid from this project funding to universities, clinics, institutes, etc.
- The project funding provided by RMS Foundation shall not be used to finance equipment, commercially available apparatus, computers, etc.
- All project information and/or documents are confidential, unless agreed otherwise.
- The use of any project outcome (publication, patent application, commercial use, etc.) must be approved by RMS Foundation.
- The detailed terms of the agreement are defined in the project acceptance letter. The project can start once the letter has been signed by the applicant.
